

Darryn Capes-Davis

I am a Technology Professional working full time in a family office. I have been a Board Member of Bicycle NSW for over 3 years, initially being appointed to fill a casual vacancy and then elected in 2019. I have fulfilled the role of Secretary since February 2021.

For information prior to Dec 2019, please refer to my prior candidate statement.

In the last 3 years I have kept up with ongoing advocacy for cycling, a standout being my support for the Sydney Harbour Bridge Northern Cycling Ramp. I created and managed a Facebook Group for the campaign, coordinating information dissemination and prompting the cycling community to give positive feedback to Transport for NSW. When the new Bicycle NSW CEO started in 2022, I was able to share the history of the ramp project, allowing for him to keep momentum of Bicycle NSW's project support and dialogue with Transport for NSW.

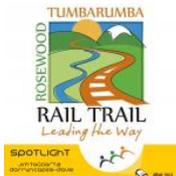

I am delighted to note that fellow Board member John Hawkins has continued the strong Advocacy work in the Board when I took up Secretary. While Secretary I undertook a skills assessment of the Board which provided guidance to the then Board to fill vacancies with appropriately qualified members.

From May 2020 until Jan 2022, I took a work break. During that time, I volunteered for community radio station Alive 90.5 FM. I was co-host of radio interview show Spotlight (<https://www.spotlight.sydney>) and had the opportunity to promote and celebrate cycling with guest interviews, including those listed below. In 2021 I was awarded Community Broadcasting Association of Australia's Outstanding Volunteer Contributor.

[9.2.2022 – Adrian Boss OAM and Charlene Bordley](#)

[20.01.2021 – Debbie Harris](#)

[3.2.2021 – David Thomson](#)

I remain active in my local Bicycle User Group, Bike North, providing technology support and was recently awarded Life Membership for my contributions. In 2022 I migrated the Bike North finance system from a legacy system to Xero, allowing for online payments. I also contributed advice to the recent Bicycle NSW membership system upgrade to iMIS.

If elected I will continue to advocate for better cycling infrastructure in NSW, as well as use my professional skills to support Bicycle NSW Board and Management to maintain good governance and reporting, with a desire to continue as Secretary of the Board.
