

Easter Scavenger Hunt

Before you head out for your ride, get together with your family and think about things you might see while riding your bike. Once you've listed 10 items, get on your bikes, and see if you can locate them!

Don't forget, while you are enjoying your ride - always keep safe and look out for any danger or hazards, too. Have fun!

A grid for an Easter scavenger hunt. It consists of two columns of five green ovals with red borders. Each oval is connected to a red dashed line that extends to the right. Various Easter-themed icons are placed around the grid: paw prints (top left), yellow flowers (top center), a green rabbit (top right), an orange bird (middle left), a green shop (middle right), and colorful Easter eggs (bottom left and bottom right).

Let us know how you get on!
